September 7-11, 2007

for the:

**11th CONFERENCE ON
NATIONAL SCENIC &
HISTORIC TRAILS
“Healthy Trail
Partnerships – Healthy
Trail Resources”**

*hosted by the North Country
Trail Association*

**in Duluth, Minnesota on the shores
of Lake Superior**

Come to Duluth to:

- learn about innovative ways to engage children, youth, families, and retirees in enjoying and sustaining your trail
- learn ways to collaborate with the outdoor recreation industry and land trusts to help protect, preserve, and develop your trail
- learn about how to build accessible trails and “Trails to Every Classroom”
- learn where “Flights to Discovery” can take you and what the “Appalachian Trail Mega-Transect Project” is all about
- hike on the North Country and Superior Hiking Trails
- visit historic lighthouses
- enjoy a dinner cruise on Lake Superior
- enjoy the splendor of the crystal blue waters of the largest freshwater lake in the world

Lake Superior holds enough water to cover all of North America in water three feet deep and is large enough to dramatically affect weather in surrounding areas.

Mark your calendars and watch for more details in coming months.
